## Take Control of Your K-12 Project

Reducing Labor costs has never been easier. Choose nLight AIR for an easy to install solution that scales to your project's needs. Whether you are looking for a standalone control to aid in code compliance or a networked control system to span indoor and outdoor applications across an entire campus, nLight AIR is up to the task. Select the nLight AIR embedded option on a configurable product to make installation even easier.

- No additional hardware needed
- No ladders necessary – the CLAIRITY™ Pro mobile app allows you to start up and commission the job with both feet on the ground
- Easily re-configure and maintain on-site
- DLC approved control system for additional rebates
