

A SIMPLE LINE OF LIGHT

Technology is evolving, changing the way we work and how we interact with our built environments. This creates more opportunities and more complex challenges to solve. Aesthetics, quality and tailored control of light are critical to delivering a comprehensive solution for your design. Technology is also enabling our lighting to be smarter, smaller and more dynamic, resulting in greater complexity.

Your aspiration? [A simple solution.](#)

Developed as an extension of our existing SLOT family, SLOT 1 is thoughtfully crafted linear lighting, inspiring specifiers to make their most creative visions a reality.

Your design is thoughtful. The lighting should be too.

KEY BENEFITS

Complete set: Recessed, Pendant, Surface and Wall forms

Small form factor: 1.5 in. x 2.325 in. Direct and Indirect and 1.5 x. 3.125 in. Direct/Indirect

Exceptional visual comfort: Mitigate glare with a regressed lens and deep cell baffle

Outstanding quality of light: Choose from multiple direct and indirect distribution options

Greater granularity of control: Modulus™ low voltage power and control system, delivers up to 16 channels of addressable control for up to every 32 feet

Simplified installation: Modular design reduces installation complexity and time of installation with features such as install from below

Easier emergency planning: Illuminate the whole run for greater uniformity

Outstanding flicker-free dimming: Performs within the recommended operating parameters for flicker as a function of frequency and modulation outlined in IEEE Standard 1789-2015, in typical operating conditions at representative dimming levels

Superior color: Exceptional quality lighting to 90 CRI

Multiple lumen options: Lumen packages available in 200-1,200 lumens per foot

Delicate details: Pre-configured patterns, drop lenses, edge-view lens, three standard finish options, and hard ceiling and all acoustical grid mounting options
