BLWP

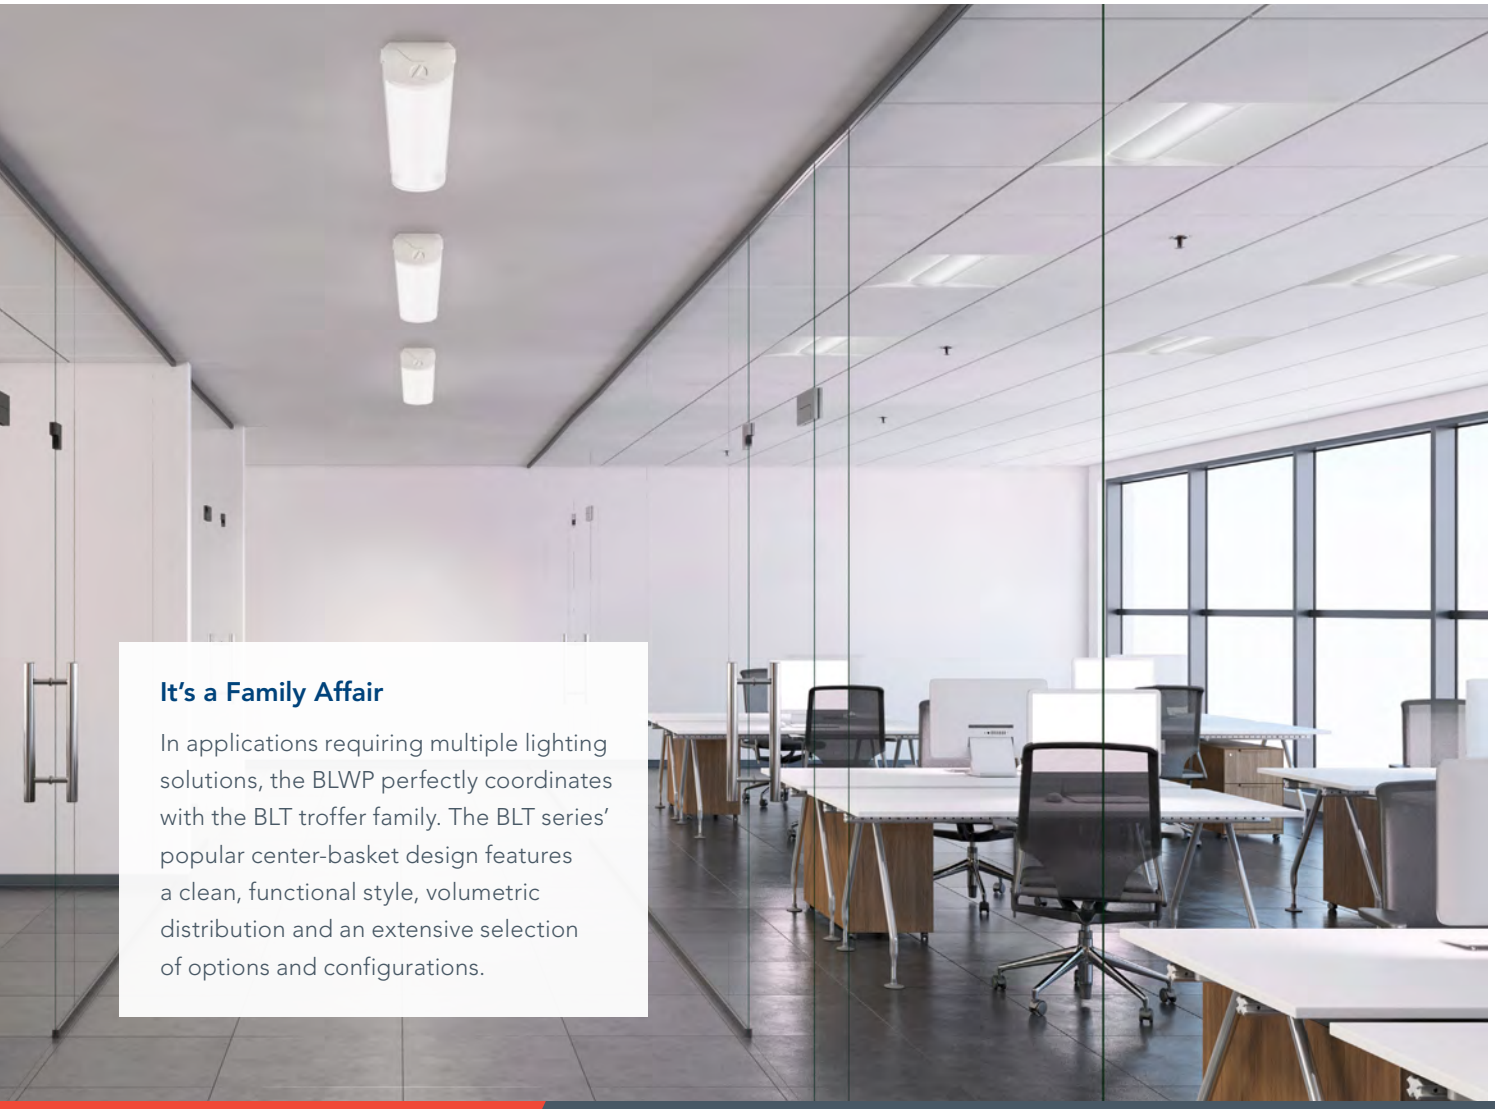
Low-Profile LED Wraparound

The BLWP Low-Profile LED Wraparound is a complement to the popular Lithonia Lighting® BLT and BLTR center basket troffer family. It features a contemporary design with numerous configurations and mounting options.

Our Most Advanced and Versatile Wraparound

Ultimate configurability makes BLWP the perfect choice for a wide range of applications. Lighting performance, multiple control options, and easy installation for ceiling, wall, or suspended mounting makes it ideal for renovation or new construction.

- **Flexibility in performance:** Delivered lumens from 800 to over 20,000 to meet nearly any lighting requirement
- **Efficiency in operation:** Efficacies up to 140 LPW maximize energy savings and rebates
- **Versatility in controls:** Dimming, onboard sensors, and nLight® AIR wireless options make controls and connectivity a breeze
- **Reliability:** Long-life LEDs maintain lumen output for years of performance



It's a Family Affair

In applications requiring multiple lighting solutions, the BLWP perfectly coordinates with the BLT troffer family. The BLT series' popular center-basket design features a clean, functional style, volumetric distribution and an extensive selection of options and configurations.

Advanced Control Options

nLight® Wired

The nLight networked digital lighting control system is easy to use, easy to install and saves energy. Using only standard CAT-5e cable, nLight networks together occupancy sensors, wall stations, and digital LED luminaires to create a digital lighting system with unmatched flexibility. nLight easily scales from one room to an entire campus to create a lighting control solution that's perfect for your space.

Integrated Occupancy Sensor
Integrated occupancy sensor with passive infrared (PIR) technology enhances your energy savings.

nLight AIR Wireless Control

nLight AIR is a simplified wireless lighting control solution ideal for projects where running wires can be expensive and time-consuming. Comprised of nLight AIR enabled fixtures, wireless battery powered wall switches, and CL***AIR***ITY PRO — your mobile app for quick and easy start-up.

Ideal for Multiple Applications

- 24", 48" and 96" versions available
- Wall mount application suitable for hallways and stairwells
- Surface mount application suitable for schools, offices, utility spaces
- Suspended mount application suitable for open office designs and other commercial spaces

SIMPLE AS

1

Install nLight AIR enabled fixtures. The embedded smart sensor helps to achieve energy code compliance.

2

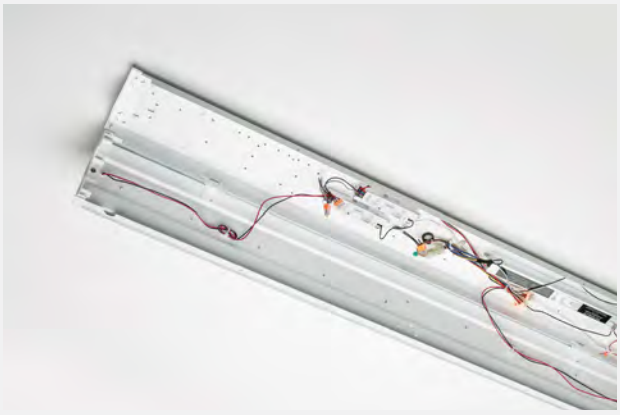
Install wireless battery powered wall switch. Multiple configurations available to meet the needs of your customer.

3

Download the CL***AIR***ITY PRO app, pair the fixtures to the wall switch and configure the lights to match your space.

Easy Installation

Optional quick-mount bracket allows direct installation to j-box without opening the fixture at all.



Unitized optical assembly hinges away from backplate with no need to remove the diffuser for installation.

SDP SDSM ADP ADSM

7-9% uplight 11-13% uplight

Sleek BLT family options offer design versatility:

- Round or square profiles to coordinate with site design
- Available in a variety of finishes and color treatments
- Controls / sensor options embedded in color-coordinated trim rings

Selection of lens allows tailored up-light capability:

- Round profiles provide 7-9% uplight
- Square profiles provide 11-13% uplight
- Polycarbonate diffusers available for impact-resistance. (Tamper-resistant hardware also available)

Lithonia Lighting® is a member of the Acuity Brands portfolio of lighting, controls and daylighting solutions.

Lithonia Lighting offers one of the industry's broadest lighting portfolios for commercial and industrial lighting applications. Our LED, fluorescent and HID lighting are recognized for their quality, reliability and solid performance, making Lithonia Lighting one of the most specified brands in the lighting industry.
