Juno® Trac-Lites™ R605L & R606L Integral Driver LED Cylinder Fixtures

Sporting a timeless cylinder aesthetic, the Juno R605L and R606L Series further expands the economical Trac-Lites LED track fixture offering. But don't be fooled by their compact form and simple good looks – the R605L & R606L Series feature powerful performance, providing output upwards of 1300 lumens while consuming a maximum of 13 watts.

Juno R605L & R606L Series fixtures feature a compact fixture footprint and commercial grade performance, and are designed for greater than a 50,000 hour operating life. Consuming only 10 watts or 13 watts, respectively, these track fixtures are highly efficient delivering up to 107 lumens per watt.

Features:

- Deep source regression for superior glare control
- Outstanding thermal management provides over 50,000 hours of maintenance-free operation
- Standard dimmable using high-quality, factory-approved dimmers – see specifications
- Choice of 2700K, 3000K, 3500K or 4000K CCT at 80 or 90 CRI
- Choice of spot, narrow flood, flood, or wide flood beam distributions
- Interchangeable, precision-molded custom TIR optic assemblies
- Black, bronze (R605L only), silver or white finishes
- ENERGY STAR® certified, DesignLights Consortium® qualified, and certified to meet the high efficacy requirements of CA Title 24 (JA8 2016 & 2019)
- Optional factory-installed or field-installed bayonet-mount accessory holder that can accommodate one 2" accessory

Juno® Trac-Lites™ R610L & R612L Integral Driver LED Cylinder Fixtures

Clean and elegant, with a simple cylindrical form, the R610L and R612L Integral Driver LED Cylinder track fixtures expand the versatility and applications for this industry-leading offering. Providing exceptional value, the performance of these fixtures is second to none, offering two new lumen packages at 2200 lumens and 3200 lumens while consuming only 21 watts and 37 watts, respectively.

Each fixture can be specified with a variety of CCTs, CRIs and beam distributions. Accessory reflectors are available to alter beam distributions in the field. A factory-assembled or field-installed bayonet-mount accessory holder is available, enabling an assortment of light control accessories to be added in the field for maximum visual comfort and to create practically any desired beam effect.

Features:

- Cleverly designed nested yoke arm enables simple straight-down aiming if desired
- Deep source regression for exceptional glare control
- Outstanding thermal management provides over 50,000 hours of maintenance-free operation
- Standard dimmable using high-quality, factory-approved dimmers – see specifications
- Choice of 2700K, 3000K, 3500K or 4000K CCT at 80 or 90 CRI
- Choice of spot, narrow flood, flood, or wide flood beam distributions using interchangeable, twist & lock reflectors
- Black, silver or white finishes
- ENERGY STAR® certified, DesignLights Consortium® qualified, and certified to meet the high efficacy requirements of CA Title 24 (JA8 2016 & 2019)
- Optional factory-installed or field-installed bayonet-mount accessory holder that can accommodate one 2 3/4" accessory

Juno® Trac-Lites™ R620L Adjustable Beam Integral Driver LED Cylinder Fixtures

The stylish and economical Juno R620L Series is the answer to your lighting applications that require a range of beam patterns or may have a change in beam requirements in the future. The proprietary, patented R620L optical system enables the beam distribution to be continuously adjusted between 17° and 53° by simply rotating the front bezel – no special tools or additional accessories required. More importantly, the optical system offers unparalleled efficiency by maintaining output that varies by no more than 40 lumens throughout the beam adjustment range. Change has never been as easy, efficient or affordable.

Features:

- Consumes only 15 watts to provide up to over 1200 lumens
- Simple and timeless cylindrical aesthetic with standard ELV dimming compatibility down to as low as 2% or better
- Integrated driver resulting in small overall fixture footprint
- Cleverly designed nested yoke arm enables simple straight-down aiming if desired
- Outstanding thermal management provides over 50,000 hours of maintenance-free operation
- Choice of 2700K, 3000K, 3500K or 4000K CCT at 80 or 90 CRI
- Black, silver or white finishes
- ENERGY STAR® certified, DesignLights Consortium® qualified, and certified to meet the high efficacy requirements of CA Title 24 (JA8 2016 & 2019)
- Optional factory-installed or field-installable accessory holder can accommodate one 2 3/4" accessory
- 2020 SSL PIA award winner
