- Historic Districts
- Commercial Developments

Tear Drop LED Large ESL3 & MPL3 Outdoor Pendants

The third generation Tear Drop LED Large expands Holophane's leadership within the market for period-styled luminaires serving urban applications with higher mounting heights. The offering spans a wide range of lumen packages while keeping with a traditional teardrop day form. Built on breakthrough LEDs and precision-engineered glass optics, the Tear Drop LED provides exceptional illumination for roadway and area applications while saving energy and reducing maintenance cost.

- + 44 - 247W LED to replace 100 - 400W HPS
- + Performance packages from 6,000 - 34,000 lumens and up to 159 lumens per watt
- + Type II, III, IV and IV distributions for roadway and area
- + Visually comfortable 2700K - 5000K CCT
- + Sleek attractive day form in either "Memphis" or "Esplanade" housings
- + Prismatic glass optics in "Teardrop", "Bowl", or "Sag" styles for high durability and visual comfort
- + Optional frosted "Flat" tempered glass optic for zero-uplight distribution and enhanced visual comfort
- + Available with optional uplight to enhance cityscapes
- + Utility-friendly features such as toolless entry and prewired three-stage terminal block
- + 20kV/10kA extreme surge protection standard
- + 20+ years service life with lumen maintenance of L87/100,000 hours
- + Advanced controls compatibility including wireless networking
- + Eight standard colors and a variety of custom colors available

Tear Drop LED Large

ESL3 & MPL3 Outdoor Pendants

Beautiful by day and visually comfortable by night, the Tear Drop LED family is available in Esplanade (ESL3) or Memphis (MPL3) housing styles with a variety of optical configurations. Prismatic glass optics include classic teardrop shape, bowl, sag or even the new flat glass optic for zero-uplight distribution. You can even choose the optional uplight feature to enhance cityscapes, trees, or architectural facades.

Exclusive to Holophane is the QSM quick-mount fitter that simplifies and reduces installation time. The finial cap can be removed for wireless network control nodes.

You can even customize your lighting experience fixture with the optional field-adjustable lumen output module.

20kV/10kA surge protection helps to ensure operational reliability.
