Pairs with a selection of Juno LED Trim Kits or Surface Mounts

No more guesswork. We've made product selection simple. When you need to grab and go and feel confident in your purchase decision, choose a readily available, Contractor Select™ product from one of our trusted brands - Juno®, Lithonia Lighting® and SensorSwitch™.

nLight® is a wired and wireless networked digital lighting controls platform for both indoor and outdoor spaces. nLight seamlessly integrates an industry-leading portfolio of controls enabled luminaires and intelligent digital devices – including occupancy and daylight sensors, power packs, wall switches, touch screens, relay panels, and input/output devices – to create a system with unmatched levels of distributed intelligence to drive energy savings, enhanced user configurability and comfort.

SensorSwitch™ offers standalone wired and wireless lighting controls solutions for both indoor and outdoor applications. Our extensive product portfolio includes occupancy sensors, photosensors, switches, embedded and integrated controls, and more.

Compliance **Just Got Easier!** Using the STAR mobile application with STAR-enabled emergency lighting products, meeting these emergency lighting requirements is simpler than ever! STAR-enabled emergency lighting equipment automatically conducts the brief monthly tests and full 90-minute annual tests, as required by code. Test results are logged internally within the unit and communicated wirelessly to the STAR app.

Select products connect to the smart home platform via Bluetooth or Zigbee, and may be controlled either via voice command, time schedules, or with the app. Compatible apps and smart home hubs include Amazon® Alexa, Google Home or Samsung® SmartThings. Once installed, easily control and customize your lighting to on/off, fine-tune the color temperatures or choose from a full color spectrum of RGB color options, plus, dimming and grouping capabilities for unlimited smart home automation on select products.

We've pulled together our key product portfolio comprised from our top brands, offering you a wide variety of multi-family solutions.
