

LIGHTING SOLUTIONS FOR HAZARDOUS APPLICATIONS

EXCEPTIONAL PRODUCTS, SERVICES, AND TECHNOLOGY TO HELP DIFFERENTIATE YOUR FACILITY

Facilities with hazardous environments require lighting solutions that provide for high levels of visibility and visual uniformity, without shadows and glare, to enhance safety measures for employees and maintain highly functional environments. Furthermore, lighting must withstand a wide range of ambient temperatures, humidity, solvents and other conditions, to address these class 1, 2 and 3 locations.

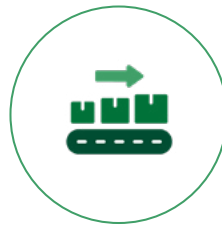

FIND RECOMMENDED LIGHTING SOLUTIONS FOR HAZARDOUS ENVIRONMENTS

Lighting and controls solutions tailored to your facility, combined with the information you need to complete your project. Get spec sheets, BIM and IES files, utility rebate calculations and more.
