SPOTLIGHT ON: LIGHTING TAILORED TO ASSISTED LIVING

EVO 6" Round Downlight by Gotham Lighting

EVO® batwing distribution provides a uniform, wide angled general illumination on horizontal and vertical surfaces to create smooth edges and an even layer of light without hot spots or rings.

STACK Family LED Lay-In Lights by Lithonia Lighting®

The next generation of center-element LED lay-in lights each purpose-designed to be the solution for any need. High performance and expanded configuration opportunities all in a new aesthetically pleasing form factor. With millions of configurations available, STACK is the ideal solution for any project.

Vision Series by Luminaire LED

The vandal resistant Vision Series provides ligature resistant construction for use in any environment. A polycarbonate lens provides complete control of glare and LED image while maintaining the high efficiency of clear optical material.

OPTIMIZE WITH CONTROLS

Use lighting controls to maximize energy savings, address code requirements, and increase occupant comfort, with a tailored solution to meet the needs of your assisted living project. Choose networked lighting controls from nLight® for optimized building wide strategies or stand-alone lighting control solutions from SensorSwitch™ for single applications. Simplify specification and design by selecting nLight or SensorSwitch enabled luminaires available with embedded controls within the luminaire or integrated controls attached to the luminaire. Additionally, compatible controls are individually available for separate shipment and field installation.

#BEAUTIFULSPACES FOR ASSISTED LIVING
