

Infrastructure Lighting Solutions

Addressing Buy America(n) Act Requirements

Infrastructure Lighting Solutions

Addressing Buy America(n) Act Requirements

For over 100 years, Holophane has provided industry-leading infrastructure lighting products and solutions, giving you the greatest value through improved visibility, energy efficiency, reliability, quality and service.

We support the Buy America(n) Act (BAA), as it serves to strengthen domestic manufacturing, and back this effort in many of our key products, producing and sourcing materials in the United States.

You will find a reference to Buy America(n) Act in our spec sheets for products that address requirements, or an option for adding “BAA” in the ordering information for select products. This reference guide lists all products from Holophane® and American Electric Lighting® available for infrastructure projects that address Buy America(n) Act requirements. Note that when trade agreements apply, most solutions from Holophane can be supplied and treated the same as a domestic U.S. product for purposes of applying U.S. procurement laws.

For more information on Buy American and domestic preference requirements, visit <https://www.acuitybrands.com/resources/buy-american>, including Buy America(n) Act Guidance and Checklist.

Buy America(n) Act (BAA) Reference

BAA Compliant¹

Add "BAA" to Catalog Number²
